

COMMUNITY REHABILITATION PROGRAM (CRP) PERFORMANCE REPORT

2020, 2021, 2022, 2023 Calendar Year Performance Data

1. Background

The following information is a compilation of measurable data points within the USOR client management system AWARE. The various data points were gathered in order to assist in the monitoring of the Community Rehabilitation Program (CRP) Agreement and for tracking the performance and progress of individual CRPs as well as training and services initiatives. Data points relating to training programs are provided by the contracted training provider, Utah State University.

2. Overview of Total CRP Services

CRP Assessment Data:

VR Counselors authorize CRPs to provide two types of assessments. Work Strategy Assessments are used for clients who can benefit from a Supported Job Based Training (SJBT) or Supported Employment (SE) pathway. Discovery Assessments are used for clients who can benefit from a Customized Employment (CE) pathway. All CRPs provide SJBT and SE services, but only a limited number of providers are authorized to provide Customized Employment services.

	2020	2021	2022	2023
Discovery (Customized)	12	22	4	12

	2020	2021	2022	2023
Work Strategy Assessments	661	852	803	984

Placement Data:

Placements are the positions that clients of VR choose to be employed in. Successful placements mean that the individual was determined to be stable in their position with the use of CRP services. The placement rate indicates the percentage of VR clients who started Job Development services (looking for, applying for, interviewing for jobs), and ended up being placed successfully in a position within a specific timeframe (e.g., January 2021 to December 2021). The days to placement indicates how long it takes for a CRP to receive authorization to begin job development with a client, until that client is placed in a position; the average is taken across all placements for the whole state, for the whole year.

	2020	2021	2022	2023
Successful SJBT Placements	200	225	254	374
Successful SE Placements	92	143	153	239
Statewide Placement Rate	63%	70.5%	64.0%	57.0%
Average Days to Placement	142	118	110	111
Customized Placements	5	14	12	9

CRP High Quality Indicator Data:

High Quality Indicators are an incentive payment that CRPs earn through assisting clients in obtaining and maintaining employment that meets an outlined criteria for more substantial competitive and integrated employment outcomes. These criteria are outlined here:

Work Hours	Wages	Benefits	Days to Placement	STEM Occupation	Rural
SJBT- 30+ hours per week SE 20+ hours per week	SJBT - \$14+/hour SE- \$10+/hour	Employer-Paid Health Care Benefits Available to Client (whether the client accesses the benefits or not)	Clients are placed in a position of their choosing in 60 days or less from the date of authorization for Job Development Services.	The client's position is listed as a STEM-Related position with O*NET	Client resides in a rural county

High Quality Indicator	2020	2021	2022	2023
Hours	30	60	74	76
Wages	14	21	100	140
Benefits	20	50	46	60
60 Days to Placement	27	119	111	116
STEM	0	3	8	8
Rural	19	29	46	27
*Covid-19	24	84	14	2
Unidentified	-	3	-	-
Total	134	369	399	429
Auths with 2+ HQIs	65	80	99	103

*The COVID-19 High Quality Indicator was introduced as a temporary HQI for CRPs to engage in Job Placement services with clients during the COVID-19 pandemic in order to incentivize continued service to clients of vocational rehabilitation during that period. This HQI was available beginning March 6, 2020 and was sunset on June 30, 2021. Because policy for billing for an HQI is only permitted after 30 days of a client being deemed as “stable”, some of these COVID-19 HQIs were billed in calendar year 2022 and 2023.

3. CRP Capacity and Training:

As part of USOR’s initiative to build capacity for Supported Employment Services, a partnership and contracts have been built with Utah State University to provide training for our CRP partners throughout the state. These training programs increase the professionalism of our service providers and provide them with the opportunity for career growth and development while serving clients of USOR more effectively and efficiently.

USU offers three (3) different training programs: An 8 hour Workplace Supports Training for Job Coach professionals, Association of Community Rehabilitation Educators (ACRE) training for Employment Specialists, and Customized Employment Training for CRPs who wish to utilize the Customized Employment model for supported employment.

In addition to the 3 USU trainings, USOR sponsors a Financial Literacy Training for CRPs who wish to provide this service to authorized clients.

The following is an overview of training program certificants through the following calendar years:

Training Program	2020	2021	2022	2023
Workplace Supports Training	133	214	266	233
ACRE Training	97	114	106	149
Customized Training	-	12	6	16
Financial Literacy	-	22	38	30
